Edwin I. Hatch Nuclear Plant
Request to Revise Technical Specifications:
Improved Standard Technical Specifications Submittal Revision

Gentlemen:

By letter dated February 25, 1994, GPC proposed to convert the current Edwin I. Hatch Nuclear Plant Technical Specifications to the Improved Technical Specifications consistent with NUREG 1433. Attached is a partial revision to the February 25 amendment request. The attachment includes page change insertion instructions. This revision is the result of meetings and discussions with the NRC staff and resolution of site review comments. The deletion of five No Significant Hazards evaluations results from this partial revision. Notice of these deletions is provided. The Environmental Assessment provided in the February 25, 1994 submittal remains valid.

In accordance with the requirements of 10 CFR 50.91, a copy of this letter and all applicable attachments will be sent to the designated State official of the Environmental Protection Division of the Georgia Department of Natural Resources.

Mr. J. T. Beckham, Jr. states he is Vice President of Georgia Power Company and is authorized to execute this oath on behalf of Georgia Power Company, and to the best of his knowledge and belief, the facts set forth in this letter are true.

GEORGIA POWER COMPANY
