Director of Nuclear Reactor Regulation
Attention: Mr. Domenic B. Vassallo, Chief
Operating Reactors Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Reference: 1. Letter from D. B. Vassallo to J. M. Pilant
dated May 11, 1983, "REQUEST FOR ADDITIONAL
INFORMATION - NUREG 0737, ITEM II.K.3.28,
QUALIFICATION OF ADS ACCUMULATORS"

Dear Mr. Vassallo:

Subject: ADS Accumulator Qualification -
Extension of Time

Reference 1 requested that the District respond to a request for
additional information on ADS Accumulators (II.K.3.28) by
June 27, 1983.

In preparing the response on this issue, the following has been
determined:

- a. Due to the length of time II.K.3.28 has been active,
there has been a change in District personnel working
on this issue. As a result, a complete re-review of all
associated documentation is necessary.
- b. In order to adequately respond to Reference 1, the
services of our Architect-Engineer is required and this
effort cannot be completed by June 27.

In a telecon June 20, 1983, the staff indicated that on the bases
above, an extension of time may be justified; therefore, the
District requests a 60-day extension of time in responding to

June 21, 1983

Reference 1. We do not feel that an extension of time would pose an undue risk to the health and safety of the public, but that it would facilitate a complete and thorough response on this item.

Should you have any questions relative to this request, please contact my office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jay M. Pilant".

Jay M. Pilant
