Mr. B. J. Youngblood, Chief  
Licensing Branch No. 1  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Perry Nuclear Power Plant  
Docket Nos. 50-440; 50-441  
SER Confirmatory Issue No. 15  
Preservice Inspection Program

Dear Mr. Youngblood:

This letter and its attachment are provided in response to the Perry Nuclear Power Plant (PNPP) SER Confirmatory Issue No. 15, regarding the PNPP Pre-service Inspection (PSI) Program.

PSI program plans for piping in the High Pressure Core Spray (HPCS), Low Pressure Core Spray (LPCS), Reactor Recirculation (RRS), Reactor Water Clean-up (RWCU), Reactor Core Isolation Cooling (RCIC), Residual Heat Removal (RHR), Control Rod Drive (CRD), Reactor Feedwater (FDW), and Main Steam (MS) Systems have been previously submitted. The PSI program plan of the Reactor Pressure Vessel (RPV) will be submitted in May 1983.

We believe that the attached PSI program plan for the Standby Liquid Control System (SLCS) will enable the Materials Engineering Branch to resolve this issue in a supplement to the PNPP SER.

Very truly yours,

Murray R. Edelman  
Vice President  
Nuclear Group
