Fire Protection Open Items

Gentlemen:

Please refer to your letter (2CNA068302) to us dated June 21, 1983, which requested our response to five open items concerning Fire Protection at ANO-2 within seven (7) days of receipt of your letter. Pursuant to a conversation between Mr. J. Ted Enos of AP&L and Mr. Bob Lee of your Staff on June 24, 1983, we are unable to respond to the open items as requested by July 1, 1983. We wish to resolve these items in a timely manner. However, the present workload required of our staff to handle those major issues which are in addition to the "normal" day-to-day efforts (e.g., Appendix R, Environmental Qualification, Emergency Planning, etc.), precludes our ability to respond by the date requested with an accurate and meaningful response. Hence, we propose to formally respond to the five items requested in the above mentioned letter, and to provide you with schedular information concerning the resolution of those items by July 30, 1983.

Very truly yours,

John R. Marshall
Manager, Licensing
