Attention: Mr. Bruce Wilson, Chief of Operating Licensing Section

Re: University of Florida Training Reactor
Facility License R-56; Docket No. 50-83

Dear Mr. Wilson:

The current operator requalification and recertification program training cycle for the University of Florida Training Reactor is scheduled to end in June, 1983. Therefore, we have developed a new plan, essentially the same as that proposed to and accepted by the NRC as part of our Safety Analysis Report and relicensing package; a copy of this plan is included as Enclosure 1 with this letter. This plan as included here will cover the UFTR operator requalification and recertification program from July, 1983 through June, 1985.

If you need further information on this plan, please let me know.

Sincerely,

William G. Vernetson
Reactor Manager
