Bethesda, Maryland 20014

Dear Mr. Denton:

Pursuant to our telephone conversation of last week, enclosed is an index which might be of help in your review of the deposition and trial record in GPU v. B&W. This index lists and describes, by deponent, all exhibits marked at depositions of GPU witnesses.

In addition, we have a four-volume index to all documents produced by GPU in this case. An effort was made to classify the documents according to various subjects, e.g., precursors, training, procedures, accident. If you are interested in a copy of this index, please let me know.
