Serial No. 968

July 11, 1983

RICHARD P. CROUSE  
Vice President  
Nuclear  
(419) 259-5221

Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
Office of Nuclear Reactor Regulation  
United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Eisenhut:

Within our letter dated April 15, 1983 (Serial No. 933), Toledo Edison submitted schedules for completing each of the basic requirements of Supplement 1 to NUREG 0737, Requirements for Emergency Response Capability. Subsequent to that, a re-confirmation of the schedule for which the Davis-Besse Nuclear Power Station, Unit 1, will complete the mentioned requirements was requested. The action items and dates listed on the attachment have been planned to meet this request, through the review of the applicable requirements and the project status and development, as they currently exist.

Your office will be informed of any problems or circumstances having an impact on this implementation schedule.

Since the forwarding of the April 15, 1983 submittal, work involved on the Safety Parameter Display System (SPDS) development has progressed more slowly than expected. Therefore, as seen on the attachment, dates relative to the completion of this activity have been delayed 60 days. Dates for all other activities associated with the Toledo Edison Emergency Response Capability are consistent with the April 15, 1983 submittal. Further information detailing the work effort involved in each initiative and action item is available in the April 15, 1983 submittal.

Very truly yours,

RPC:JSH:nlf

## INITIATIVE

### 1.0 Safety Parameter Display System (SPDS)

#### ACTION

#### DATE

1.1 Safety Analysis SPDS Details

November 30, 1983

1.2 Verification & Validation Activities and Operator Training

January 13, 1984

1.3 SPDS displays will be fully functional

November 30, 1984

### 2.0 Detailed Control Room Design Review (DCRDR)

#### ACTION

#### DATE

2.1 DCRDR Program Plan Submittal

Submitted - June 15, 1983

2.2 DCRDR Summary Report Submittal

April 15, 1984

### 3.0 Regulatory Guide 1.97

#### ACTION

#### DATE

3.1 Regulatory Guide 1.97 Report Submittal

April 15, 1984

### 4.0 Upgrade Emergency Operating Procedures (EOP)

#### ACTION

#### DATE

4.1 Procedures Generation Package

March 1, 1984

4.2 Train Operators and Implement Procedures

September 30, 1984
