Subject: Vermont Yankee Effluent and Waste Disposal Semiannual Report
for the First and Second Quarters, 1994

Enclosed herewith please find one copy of the Vermont Yankee Nuclear Power Corporation subject report. This report covers the period beginning January 1, 1994 and ending June 30, 1994 and is submitted in accordance with our Technical Specification 6.7.C.1.a and 10CFR50.36a(a)(2).

Please note that a proposed change to our Technical Specifications has been submitted to NRC for review and approval [Reference (b)] which includes a provision to bring this reporting requirement in line with the less frequent (annual) submittal schedule detailed in 10CFR50.36a, as amended. We will continue to provide the more frequent semiannual submittals required by our existing Technical Specifications until such time that Vermont Yankee receives the requested license amendment.

We trust that the enclosed information is satisfactory; however, should you have any questions, please contact this office.

Sincerely,

VERMONT YANKEE NUCLEAR POWER CORPORATION
