Dear Mr. Keppler:

SUBJECT: Self-Initiated Evaluation of Clinton
Power Station

Attached is the report of Illinois Power Company self-initiated evaluation of the construction and engineering activities involved in the construction of the Clinton Power Station. The evaluation effort was conducted in accordance with guidelines promulgated by the Institute of Nuclear Power Operations (INPO) during the period October 22 through December 17, 1982. The total time expended by the team in the evaluation effort was approximately 3400 hours.

Illinois Power Company has established a tracking system for resolving the findings identified in this report. We will be glad to further discuss our plans for resolving the findings if you desire.

Sincerely yours,

Original D. P. HALL
