Inspection Report 50-313/82-11 and
50-368/82-09

Gentlemen:

In our letter dated November 1, 1982, (ØCAN1182Ø2) responding to inspection report 50-313/82-11 and 50-368/82-09 we committed to provide a summary of AP&L's evaluation and a schedule for corrective action, if necessary, for the AP&L identified Group C items, by January 17, 1983. This schedule was based on projected work loads for the emergency preparedness staff in preparing for the 1983 Emergency Preparedness Training Program and Emergency Preparedness Exercise. The actual time requirements of the emergency preparedness staff to prepare for the 1983 Emergency Preparedness Training Program and the exercise scenario has been significantly greater than originally anticipated. Therefore, adequate time has not been available to date to compile a comprehensive response to the Group C items. AP&L will provide a response to the Group C items by March 15, 1983.

Very truly yours,

John R. Marshall
