August 28, 1994

Docket No. 50-277
License No. DPR-44

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Subject: Peach Bottom Atomic Power Station, Unit 2
Revision to Technical Specifications Change Request No. 94-05

Reference: Letter from G. A. Hunger, Jr. (PECO Energy) to U. S. Nuclear
Regulatory Commission dated May 13, 1994

Dear Sir:

In the above referenced letter, PECO Energy Company submitted, in accordance with 10 CFR 50.90, Technical Specifications Change Request (TSCR) No. 94-05 which requested a change to Appendix A of the Peach Bottom Facility Operating License No. DPR-44. The proposed change would extend the Type A test (i.e., Containment Integrated Leak Rate Test (CILRT)) interval on a one-time basis for Peach Bottom Atomic Power Station (PBAPS), Unit 2.

PECO Energy Company hereby requests that our original submittal be revised such that the submitted page 167 be deleted and replaced with the attached page 167 for PBAPS, Unit 2.

The current PBAPS, Unit 2 Technical Specification Surveillances Requirement 4.7.A.2.c.2 requires that a set of three Type A tests be performed at approximately equal intervals during each 10-year period. Page 167 of the PBAPS, Unit 2 Technical Specifications was submitted with proposed wording that would delete the Technical Specifications requirement to perform a CILRT during the upcoming PBAPS, Unit 2 refueling outage 10 scheduled to occur the Fall of 1994. These words are being further clarified to provide the exception that the third Type A test (CILRT) in the second 10-year service period will not be performed, and that the CILRT will be performed during the PBAPS, Unit 2 refueling outage 11, currently scheduled for September 1996.

Page 2

We have concluded that this clarification does not alter our evaluation of any of the 10 CFR 50.59 standards, and therefore, does not effect our conclusion that TSCR No. 94-05 does not constitute an unreviewed safety question. We have also concluded that the proposed revision does not affect the Information Supporting a Finding of No Significant Hazards Consideration and the Information Supporting an Environmental Impact Assessment.

If you have any questions, please contact us.

Very truly yours,

G. A. Hunger, Jr.

G. A. Hunger, Jr.
