Dear Sir:

The NRC was notified of a potentially reportable deficiency in  
Reference (A), and an Interim Report was transmitted by Reference (B).  
At that time, it was estimated that a Final Report would be available by  
March 15, 1983.

Due to the extensive evaluation required, it is now expected that this  
information will be finalized by April 21, 1983, when a complete report  
will be submitted.

There is no change to the Interim Report at this time.

Very truly yours,
