Subject: Revised Schedule for the 10CFR50.59 Report and UFSAR Revision Submittal

Gentlemen:

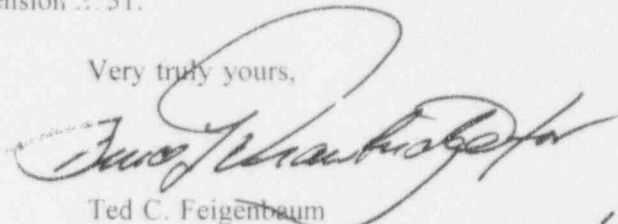

On August 31, 1992, 10CFR50.71(e)(4) and 10CFR50.59(b)(2) were revised to relax the frequency of revisions of the UFSAR and the report of changes made pursuant to 10CFR50.59. The requirements were relaxed from annual reporting to reporting on a refueling outage basis; however, the period between revisions can be no longer than 24 months.

In response to the changes to 10CFR50.71(e)(4) and 10CFR50.59(b)(2), North Atlantic Energy Service Corporation (North Atlantic) provided a schedule for a proposed submittal date of on or before November 18, 1994, [Reference (b)] for Revision 3 of the UFSAR and the next 10CFR50.59 Report. The November 18, 1994 date was based on Refueling Outage 3 being completed on May 20, 1994. The actual completion date for Refueling Outage 3 was July 31, 1994.

North Atlantic is revising its submittal date to January 31, 1995, (6 months after completion of Refueling Outage 3). The January 31, 1995 date is consistent with the reporting requirements as outlined in 10CFR50.71(e)(4) and 10CFR50.59(b)(2). The submittal will be approximately 20 months from the previous revision of the UFSAR [Reference (b)].

Should you have any questions regarding this submittal, please contact Mr. Anthony M. Callendrello, Licensing Manager at (603) 474-9521, extension 2751.

Very truly yours,

Ted C. Feigenbaum
