Mr. Richard C. DeYoung, Director  
Office of Inspection and Enforcement  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Reference: Letter, R. C. DeYoung to W. J. Kelley, dated  
January 26, 1983

Subject: Information Relating to Recent Deficiencies in  
Quality

Dear Mr. DeYoung:

This is in reply to your January 26, 1983, letter to Mr. Wendell J. Kelley concerning recent deficiencies in quality. Illinois Power Company understands the commitment for quality and safety of Clinton Nuclear Power Station and will continue to demonstrate acceptance of this responsibility. The quality of the design, construction and operation of this Nuclear Power Plant has been and will continue to be of primary interest to Illinois Power Company.

Illinois Power Company appreciates the effort by the NRC to inform utilities of this deficiency in product quality assurance. We will take appropriate corrective action in regard to these deficiencies to ensure that the highest standards of quality are maintained at Clinton Power Station.

Sincerely yours,
