David Lewis, Esq.
Law Clerk to Atomic Safety and
Licensing Board
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Re: Consolidated Edison Co. of New York, et al.
(Docket Nos. 50-247-SP; 50-286-SP)

Dear Mr. Lewis:

Pursuant to the requests made by the Board orally at the
March 25, 1983 hearing, I enclose the following documents:

- (1) Documents relating to training activities conducted
in connection with off-site response organizations
which might be called upon to respond on-site to an
emergency at Indian Point 3. Each group of documents
relates to a particular category of response organi-
zation and is preceded by an explanatory cover sheet;*

* With regard to medical support, the documents relate to train-
ing of personnel of Peekskill Community Hospital, local volun-
teer ambulance personnel, and EMT's. In addition, preliminary
meetings and tours have been conducted in connection with the
provision of back-up medical support by the Westchester County
Medical Center. The Power Authority anticipates training of
personnel from this hospital in the fall and a drill involving
these personnel shortly thereafter.

Page Two

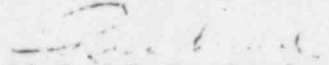

- (2) Two (2) additional copies of the Power Authority's on-site plan and procedures document, so that each Board member may have a copy. (Exhibit PA-43.); and
- (3) Two (2) additional copies of the Parsons Brinckerhoff Quade & Douglas November 1981 Draft Methodology to Calculate Evacuation Travel Time Estimates document, so that each Board member may have a copy. (Exhibit CE-10.)

In addition, the Board requested a reference to the sample emergency broadcast system messages contained in the off-site emergency plans. Such samples are contained on pages PI/E-16-23 of the Putnam County Radiological Emergency Response Plan, Part II (Exhibit NYS-11), pages PI/E-16-25 of the Westchester County Radiological Emergency Response Plan, Part II (Exhibit NYS-13), pages PI/E-16-25 of the Orange County Radiological Emergency Response Plan, Part II (Exhibit NYS-12), and pages O-18-25 of the New York State Radiological Emergency Preparedness Plan, Compensating Measures for Rockland County (Exhibit NYS-6).

Emergency notification between Indian Point 3 and off-site agencies would be accomplished through Form EP-8 and Procedure IP-1030 of the Indian Point No. 3 Emergency Plan Procedures Document (Exhibit PA-43).

Kindly advise me if the Board requires any further documents.

Very truly yours,

Richard F. Czaja
