Subject: Diagnostic Self Assessment Team (DSAT) Report
Cooper Nuclear Station
NRC Docket No. 50-298, DPR-46

Gentlemen:

Enclosed for your information and use is the Diagnostic Self Assessment Team (DSAT) report of the Nebraska Public Power District's (NPPD) Cooper Nuclear Station (CNS). This self assessment of CNS was conducted to provide an independent evaluation of CNS performance. The objectives of the DSAT were to determine the root cause(s) for the stations declining performance and to identify areas requiring improvement. The enclosed report provides the results of that effort.

If you have any questions concerning this subject, please contact me at this office.

Sincerely,

G. R. Horn
Vice-President Nuclear
