March 25, 1983

Mr. A. J. Neylan
Project Manager
Torrey Pines Technology
P. O. Box 85603
San Diego, California 92138

Dear Mr. Neylan:

In accordance with our telephone conversation of March 24, 1983, I am enclosing a copy of our current project organization chart dated January 19, 1983, as well as organization chart revisions dated May, 1978; December, 1978; and April, 1981, respectively. It should be noted, however, that the position of Vice President, Nuclear Operations has been vacant since mid January, and since that time the managers reporting to that position have been reporting directly to me on an interim basis. Effective April 4, 1983, a Senior Vice President of Nuclear Operations will take over the total project, reporting directly to the President. At that time, appropriate revisions will be made to the organization chart. As I indicated in my conversation with you, most of the requested documentation is available in some form, but would be extremely difficult to reproduce and package in a reasonable time frame.

For this reason, I requested that your formal request to Mr. Dickhoner of March 22, 1983, be reduced in scope to those items that you feel must be reviewed in your offices. This is to confirm that you agree to reducing your request for items to be reviewed off-site to Items 2, 5, 6.1, 6.2, 6.6, 7.9, 7.10 and 7.11 of your letter.

The other information will be made available to you on your visits to the project. The above listed items to be reproduced and forwarded for your off-site review are in the process of being assembled and should be available some time next week. The enclosed organization charts should satisfy your immediate needs, and I trust the above confirms accurately our telephone conversation.

Very truly yours,

E. A. Borgmann
