Mr. William Horin  
Debevoise & Liberman  
1200 - 17th St., N. W.  
Washington, D. C. 20036.

Dear Bill:

Subject: Texas Utilities Generating Company,  
et al. (Comanche Peak Steam Electric  
Station, Units 1 and 2); Docket Nos.  
50-445 and 50-446; Exhibits to Testimony  
of CASE Witness Jack Doyle

As we discussed this morning, regarding the "clean" copies which Applicants are to supply to replace the drawings contained in Jack Doyle's deposition on which he had made handwritten notes, we're attaching a summary of our comments on each of them.

Generally, they fall into the following categories:

1. Those with dashes in both columns -- we have no problem with these.
2. Those which appear to be whited-out copies of Mr. Doyle's exhibits. Why weren't clean copies made from the microfilms at CPSES of the original drawings from which copies were made? This would also have made reading some of the xeroxing much easier for all parties, since some of Mr. Doyle's photocopies are not of the highest quality.

Please provide clean copies of these exhibits from the microfilm copies of the drawings (instead of the current whited-out re-photocopies) for the exhibits with the phrase "Whited-out" appearing under the heading "Comments" in the attached listing.

3. Other questions/problems on several "clean" copies which you sent. These are copies for the following CASE exhibits (see attached list for details of problems): 4-M, 5-B, 8-I, 11-00, 11-RR, 11-TT, 11-UU, 13-LL, and 18.

For each of these questioned "clean" drawings, please provide: (1) photocopies taken from the original microfilm from which Mr. Doyle's photocopy was made; or (2) information regarding why it can't be provided.

If you have any questions after you get this, please give me a call and we'll go over them when you have our comments in hand.

Thanks,

CASE (Citizens Association for Sound Energy)

cc: Service List (First Class)

DS03

The following lists the clean copies of the drawings attached to Mr. Doyle's testimony with our assessment of their condition and any comments or questions which we have regarding each one:

<u>Drawing</u>	<u>Comments</u>	<u>Questions/Problems</u>
3-E	Whited-out	---
3-G	---	---
4-C	---	---
4-J	---	---
4-M	---	Mr. Doyle's drawing is stamped with an encircled "M" at the bottom of the page at blank for Rev. 2; "clean" copy submitted by Applicant's does not have this encircled "M" on it.
4-O	---	---
4-Q	---	---
5-B	---	All of the written comments and drawings, etc. appearing at the top of the drawing ("*For STRUDL anal. ....") in Mr. Doyle's testimony were <u>not</u> Mr. Doyle's comments, but actually were already on the copy which Mr. Doyle had received. These comments, etc. have been removed (or were not included in the copy) of Applicant's "clean" copy.
7-C	---	---
7-D	Whited-out	
8-T	---	At the top, under "Description," the column labeled "ASME or ASTM" for #7 in Applicant's "clean" copy is now unreadable. In Mr. Doyle's drawing, it clearly reads "A500GRB."
8-V	---	---
9-Q	Whited-out	---
9-R	---	---
9-W	---	---

Drawing	Comment	Questions/Problems
11-HH	Whited-out	----
11-JJ	---	---
11-LL	Whited-out	---
11-OO	Whited-out	(1) Mr. Doyle's copy does <u>not</u> have the comment "This Document Affected by Design Changes" in the upper right-hand corner, as does Applicant's "clean" copy. (2) Mr. Doyle's drawing does <u>not</u> have the bar stamp "Information Only" overlaying the Document Control Center stamp, as does Applicant's "clean" copy.
11-QQ	Whited-out	---
11-RR	Different Drawing	(1) Mr. Doyle's drawing does <u>not</u> have either the round CPSES Document Control Center stamp or the superimposed "Information Only" bar stamp, as does Applicant's "clean" copy. (2) Mr. Doyle's drawing <u>does</u> have the notation "ELEV LKG NORTH" on it; Applicant's "clean" copy does <u>not</u> have it. (3) Applicant's "clean" copy has the notation "*ATT" underneath the lower left-hand drawing; Mr. Doyle's drawing does <u>not</u> have it. (4) Mr. Doyle's drawing shows three <u>single-dashed lines</u> (indicating regular Hilti bolts) at the bottom of the top diagram; Applicant's drawing shows three <u>double-dashed lines</u> (indicating super Hilti bolts).
11-TT	Whited-out	Checkmark appears on Applicant's "clean" copy at top right in Materials and Operations part, under "QUAN" heading for MARK #CC-1-107-008-E23R; Mr. Doyle's drawing does <u>not</u> have this.
11-UU	Different Drawing	(1) Mr. Doyle's drawing shows 2 dimension numbers in the upper right-hand drawing: 1½" and 3½" which do not appear on Applicant's "clean" drawing. (2) Mr. Doyle's drawing does <u>not</u> show a date under the "DATE" column to the right of "REV" column on the side information bar on the left of the photocopy; Applicant's "clean" drawing shows a date-- <u>7/26/82</u> .
11-VV	---	---
11-XX	---	---
12-E	---	---
12-F	Whited-out	
12-H	Whited-out	---

<u>Drawing</u>	<u>Comment</u>	<u>Questions/Problems</u>
12-N	Whited-out	
13-S	---	---
13-U	Whited-out	---
13-V	Whited-out	---
13-X	Whited-out	---
13-CC	---	---
13-DD	---	---
13-JJ	---	---
13-KK	Whited-out	
13-LL	Whited-out	On the lower, right-hand drawing, Mr. Doyle's drawing has the notation "Q"; Applicant's "clean" copy does not. -
13-MM	Whited-out	---
13-OO	Whited-out	---
13-SS	Whited-out	---
13-TT	---	---
13-VV	---	---
13-XX	Whited-out	---
13-AAA	---	---
13-CCC	Whited-out	---
13-DDD	---	---
13-EEE	---	---
13-FFF	Whited-out	---
13-HHH	Whited-out	---
13-JJJ	Whited-out	---
13-MMM	---	---

<u>Drawing</u>	<u>Comment</u>	<u>Questions/Problems</u>
14-E	---	---
14-H	Whited-out	
16-B	---	---
18	---	Mr. Doyle's drawing does <u>not</u> have the stamped comment "Document Affected by Design Changes" as does Applicant's "clean" copy.
