Subject: NPDES Discharge Monitoring Report for
Catawba Nuclear Station - SC0004278
File: CN-702.20

Dear Sir:

In accordance with Part I, C(2) of the above referenced NPDES permit, duplicate copies of the monthly monitoring report for the month of March, 1991 are enclosed.

On March 21, 1991, overflow from a manway discharged into the Standby Nuclear Service Water Pond (SNSWP). As a result, the Fort Lawn District Office was notified and repairs were made to a clogged line. During the period of the overflow no raw sewage was seen entering the SNSWP.

Please direct any correspondence or questions concerning Catawba Nuclear Station's NPDES program to M. E. Kowalewski, (704) 382-0473 or M. C. Griggs, (704) 373-7080, Nuclear Environmental Compliance.

Very truly yours,
