Dear Sir:

The NRC was notified of a potentially reportable deficiency in  
Reference (A), an Interim Report was transmitted by Reference (B), a Time  
Extension was requested by Reference (C) and an Interim Report was  
transmitted by Reference (E) in response to the NRC's request in  
Reference (D) for additional information. At that time, it was estimated  
that a Final Report would be available by March 31, 1983.

Due to the extensive investigation and evaluation required, it is now  
expected that this information will be finalized by April 22, 1983, at  
which time a complete report will be submitted.

Very truly yours,
