U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Gentlemen:

Subject: Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR 50
Docket No. 50-289
License Amendment Request No. 246

Oyster Creek Nuclear Generating Station (OC)
Operating License No. DPR-16
Docket No. 50-219
License Amendment Request No. 223

Revisions to the "Plan for the Long Range Planning
Program(s)" for Integrated Schedules.

- References:
- 1) OCNGS License Amendment No. 122, dated May 27, 1988
incorporating License Condition 2.C.(10) [now (6)].
 - 2) TMI-1 License Amendment No. 140, dated May 27, 1988
incorporating License Condition 2.c.9.

Pursuant to 10 CFR 50.90, GPU Nuclear Corporation (GPUN), operator of the Three Mile Island Nuclear Station and Oyster Creek Nuclear Generating Station requests a change to each plant's Operating License. Also enclosed is one signed copy of the Certificate of Service for this request which confirms service to the senior official of the townships in which the facilities are located.

By References 1 and 2 above, the NRC-approved license conditions added an Integrated Schedule Plan for both the TMI-I and OC facility operating licenses. The "Plan for the Long Range Planning Program" (the Plan) was also approved; and, changes to the Plan must be submitted for NRC approval and issuance of a subsequent license amendment to reflect the date of the revised Plan. The proposed license amendments serve: to revise the Plan by changing the semi-annual reporting period to annual, and to reflect refined evaluation criteria and assessment methodology; and, to incorporate the necessary changes to the license condition wording. No Technical Specifications are affected by the proposed license amendments.

This change request has been reviewed in accordance with Section 6 of the TMI-1 and OC Technical Specifications. Using the standards in 10 CFR 50.92 we have concluded that these proposed changes do not constitute a significant hazards consideration, as described in the enclosed analysis performed in accordance with 10 CFR 50.91(a)(1); and, we have provided a copy of this letter, the proposed change, and our analyses to the designated representative(s) of the Commonwealth of Pennsylvania and the State of New Jersey - Department of Environmental Protection, as required by 10 CFR 50.91(b)(1).

If you should have any questions concerning the enclosures, please contact Mr. Michael W. Laggart, Manager Corporate Nuclear Licensing at (201) 316-7968.

Very truly yours,

R. L. Long
Vice President and Director
Services
