T. M. Novak dated November 12, 1982

Dear Mr. Knighton:

Enclosed are seven copies of the Waterford Steam Electric Station - Unit Number 3 (Waterford 3) Environmental Protection Plan (EPP), amended as requested by Mr. J. H. Wilson, NRC Project Manager for Waterford 3. This revision reflects changes requested by the staff subsequent to its review of the EPP which was submitted on November 12, 1982 (Reference 2). These changes were discussed and agreed upon during conversations between C. D. Groome of our Nuclear Licensing Staff and C. W. Billups and L. M. Bykoski, NRC reviewers for the Waterford 3 EPP. The EPP was originally submitted on June 16, 1982 (Reference 1), revised as requested by staff and resubmitted on November 12, 1982. Staff review of the latter submittal has necessitated the revision which is being submitted at this time. It should be noted that, as suggested by NRC staff, the Cultural Resources Protection Plan has been removed from the text of the EPP, and is incorporated by reference. The Cultural Resources Protection Plan is being submitted to the docket as a separate document.

Yours very truly,

  
L. V. Maurin
