Subject: Submission of Revision 5 to the Fermi 2 Radiological  
Emergency Response Preparedness Plan

Pursuant to 10CFR50.54(q), Detroit Edison hereby submits Revision 5 to the Radiological Emergency Response Preparedness Plan (RERP Plan) for Fermi 2. This revision makes a change to RERP Figure B-1 (Page B-13 only) to add the new position of General Director, Regulatory Affairs and to update the figure to reflect current titles and reporting relationships. Please remove and discard pages B-13 Rev. 4, the cover sheet from RERP Plan Revision 4, and the List of Effective Pages - Revision 4. Insert the attached page B-13, the cover sheet from RERP Plan Revision 5, and the List of Effective Pages - Revision 5.

This revision does not change the procedural requirements of the RERP Plan. The change is necessary to meet the requirements of 10CFR50, Appendix E, Section IV, "Content of Emergency Plans" which requires emergency plans to contain a description of the normal plant operating organization. This requirement is met by Figure B-1. 10CFR50.47b(16) requires emergency plans to delineate responsibilities for plan development and review. Those responsibilities are not affected by the changes in reporting relationships. These changes do not affect any reporting relationship or functional responsibility of the Emergency Response Organization. A similar reporting relationship existed for the Supervisor RERP prior to 1988 when that position reported to a Director level position.

Revision 5 to the RERP Plan has been reviewed in accordance with 10CFR50.54(q). The change made under this revision does not decrease the effectiveness of the plan and the plan, as changed, continues to meet the standards of 10CFR50.47(b) and the requirements of 10CFR50, Appendix E.
