Re: Maryland State Discharge
Permit No. 74-DP-0187 and
NPDES Permit No. MD 0002399

Dear Mr. Parise:

A previous letter of reported non-compliance dated January 5, 1983 inadvertently mislabeled a monitoring point as the entire outfall. Please note the following corrections:

Paragraph 3 should read "On December 3, 1982, the weekly coliform analysis from monitoring point 101 of outfall 001 showed a concentration of >1609 mpn/100 ml"

Paragraph 4 should read "On December 12, 1982, effluent chlorine analysis from monitoring point 101 of outfall 001 was not performed."

Please note these changes in the original report.

Very truly yours,

L. B. Russell
Plant Superintendent
