Gentlemen:

Enclosed is one (1) copy of the Annual Radiological Environmental Operating Report for the CPSES Radiological Environmental Monitoring Program. This report is submitted pursuant to Section 6.9.1.3 of the CPSES Unit 1 Technical Specifications. The report covers the period from January 1, 1990, through December 31, 1990, and summarizes the results of measurements and analysis of data obtained from samples collected during the interval. Also included with the report, as a one-time submittal, are the 1988 Radiological Environmental Monitoring Report (Appendix F) and the 1989 Radiological Environmental Monitoring Report (Appendix G). These two reports provide the results of the CPSES program for a two year period prior to the year in which CPSES achieved initial criticality.

If there are any questions regarding this report, contact Mr. Greg Bell at (214) 812-4373 or Mr. Doug Kay at (214) 812-8817.

Sincerely,
