Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Quad Cities Station Units 1 and 2
Proposed Amendment to DPR-29 & 30
Radiological Effluent Technical
Specifications (RETS)
NRC Docket Nos. 50-254 and 50-265

- References (a): D. L. Ziemann letter to R. L. Bolger
dated February 19, 1976.
- (b): R. L. Bolger letter to B. C. Rusche
dated June 4, 1976.
- (c): T. J. Rausch letter to H. R. Denton
dated January 21, 1983.

Dear Mr. Denton:

Pursuant to 10 CFR 50.59, Commonwealth Edison proposes to amend Appendix A, Technical Specification to Quad Cities Station Units 1 and 2 Operating Licenses DPR-29 and DPR-30, respectively. This amendment, Attachments 1 and 2 to this letter, proposes changes to the Technical Specifications and Bases to incorporate Radiological Effluent Technical Specifications (RETS).

These proposed changes have received On-Site and Off-Site review and approval. This is a revision to a previous draft submittal transmitted per Reference (a) and incorporates comments made by your staff and its consultants, EG&G Idaho, in a February 18, 1983 meeting. Commonwealth Edison feels this revised submittal meets both your staff and consultant's concerns and, therefore, is submitting this as a proposed change to the Technical Specifications.

Due to the magnitude and number of requirements this proposed Technical Specification would impose on Quad Cities we request that, if accepted as is, this proposed Amendment be made effective 6 months after NRC approval. This is necessary to allow us sufficient time to implement all the changes necessary to be in full compliance.

Finally, we were requested to provide a schedule for submittal of an RETS amendment for Dresden Station Units 2 and 3. Due to the magnitude of this amendment change and the site-unique features and philosophies we propose submitting a Technical Specification amendment six (6) months after approval of Quad Cities submittal.

Please address any questions you may have regarding this matter to this office.

Three (3) signed originals and thirty-seven (37) copies of this letter with Attachments are provided for your use.

Very truly yours,

B. Rybak
Nuclear Licensing Administrator
