In the Matter of  
Philadelphia Electric Company  
(Limerick Generating Station, Units 1 and 2)  
Docket Nos. 50-352 and 50-353

Gentlemen:

By letter dated March 1, 1983, I submitted certain information requested by the Atomic Safety and Licensing Board related to contentions which were conditionally admitted. Since that time, there have been some minor adjustments in the scheduled submittal dates. Attached is a revised table showing the dates for submission of information for those contentions as indicated in my March letter and the presently estimated date for such submission.

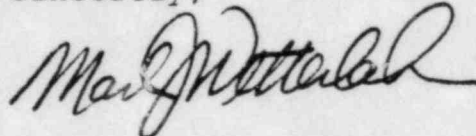

The table attached to my March 1, 1983 letter indicated that information relating to the PRA contentions would be submitted in Section 7.1 of the Environmental Report - Operating License Stage ("EROL") which was scheduled to be submitted in March, 1983. This section of the EROL was transmitted informally to the NRC on March 31. A copy of the transmittal letter was sent to the Board and parties. In addition, I hand delivered a copy to Ms. Dorsey when we

met on April 1, 1983. If the Licensing Board or any other party would like a copy of this section of the EROL before it is submitted in final form as an amendment to the application at the end of April, please let me know.

Sincerely,

A handwritten signature in dark ink, appearing to read "Mark J. Wetterhahn". The signature is fluid and cursive, with the first name "Mark" being more prominent and the last name "Wetterhahn" written in a continuous script.

Mark J. Wetterhahn  
Counsel for Philadelphia  
Electric Company
