Mr. Dennis M. Crutchfield, Chief  
Operating Reactors Branch No. 5  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Crutchfield:

Subject: Oyster Creek Nuclear Generating Station  
Docket No. 50-219  
Amendment No. 66

On March 24, 1983, the subject amendment was issued which deletes various sections of the Appendix B Environmental Technical Specifications which pertained to the non-radiological water quality-related requirements. In your letter transmitting the amendment, you requested confirmation of our commitment to provide the NRC with a copy of any changes to the NPDES permit and any NPDES permit violations requiring notification to the permitting agency, which is the New Jersey Department of Environmental Protection (NJDEP).

In regard to changes to the NPDES permit, a copy will be sent to the NRC offices designated in your letter within 30 days after receiving such change from NJDEP. In regard to NPDES noncompliance notifications, a copy will be sent to the designated NRC offices concurrent with submission to the NJDEP.

The NRC will be copied on these NPDES matters for a period of two years from the date of this letter. This practice will be continued beyond that time period, if the NRC indicates in writing the continued need to receive this information.

Very truly yours,

  
Peter B. Fiedler  
Vice President and Director  
Oyster Creek
