Re: In the Matter of Public Service Company of New
Hampshire et al. (Seabrook Station, Units 1 and 2)

Dear Judges Hoyt, Luebke, and Harbour:

This is to notify the Board and parties to this proceeding of a misstatement contained in the State of New Hampshire's Answer to the Applicant's and the Staff's Motions For Summary Disposition of Contention NECNP-I.B.1, filed on March 23, 1983. We have been informed by our consultant Dr. Stephen Fan that the reference to the Model F steam generator in paragraph 3 of his affidavit is incorrect, and that that paragraph should read as follows:

3. This tube integrity problem has persisted with Westinghouse's recent model steam generators.

The references to the Model F steam generator in Paragraph 2 of the Statement of Material Facts and on Page 2 (at lines 3 and 4) of the Answer should be modified in like fashion.

A corrected version of New Hampshire's Answer, with the accompanying Statement of Material Facts and Affidavit, will be served on the Board and parties as soon as Dr. Fan re-executes his Affidavit.

Yours truly,
