2) Letter, G.D. Bouchey, Supply System to Harold R. Denton, NRC, "Small Break LOCA Topical Reports," dated December 21, 1982.

With reference 1 Babcock & Wilcox, (B&W) submitted Appendix I to the SBLOCA ECCS evaluation model topical report (BAW-10154). We request that this appendix be considered as part of the operating license application for WNP-1.

In reference 2 we made the same request for the main portion of BAW-10154. Appendix I was being withheld pending a decision to change to external auxiliary feedwater headers located high on the steam generators. We have decided to make this change on WNP-1.
