Re: Shoreham Nuclear Power Station, Brookhaven, N.Y.
NRC Docket Number 50-322(OL)

Dear Mr. Brenner:

I am writing to you on behalf of our client, the Shoreham-Wading River School District, Brookhaven, New York, to request that the School District be permitted to make a limited appearance in the above captioned proceedings.

As background, the Shoreham-Wading River School District has intervened in three tax certiorari proceedings instituted by LILCO challenging the assessments for the 1976 through 1979 tax years. LILCO comprises 85% of the School District's tax base over the period in question, and LILCO has generated in excess of \$21M in tax revenues. Once the Shoreham Nuclear Power Station is completed and goes on line the amount of tax revenues will increase - to the benefit of the School District. Conversely, if the plant is not licensed to operate, the District will suffer major losses of revenue and the educational program will be profoundly impacted.

Therefore, any decision that the NRC may make effecting the operating license, will impact the fiscal stability of the School District. As a drastic example, if an operating license is denied by the NRC, the Shoreham Nuclear Power Station may be physically useless. This would result in a drastic reduction in LILCO's tax assessment. Hence, the School District could suffer a tremendous decrease in revenues and services.

For this reason, the School District desires to make a limited appearance so as to have the opportunity to make its position known to the NRC by testimony.

It is my understanding that by making a limited appearance, the School District will receive notices of all future hearings and conferences, as well as copies of all relevant documents connected with this proceeding.

Please forward all such communications and documentation to: LOU LEWIS, ESQ., 55 Market Street, Poughkeepsie, New York 12601.

Thank you for your expected cooperation and assistance in this matter.

Yours very truly,
