## Submission of Revision 9 to the Monticello and Prairie Island Security Force Training and Qualification Plan

Pursuant to 10 CFR Part 50, Section 50.54(p), we are submitting four copies of Revision 9 to the Monticello and Prairie Island Security Force Training and Qualification Plan. Revision 9 includes the following changes: 1) eliminates the "hip-fire" position for shotgun qualifications, 2) increases the qualification standard for the "point shoulder" position, and 3) addresses the training requirements for the security for the Independent Spent Fuel Storage Installation (See our letter dated March 13, 1991).

These changes do not decrease the effectiveness of the Monticello and Prairie Island Security Force Training and Qualification Plan.

This revision to the Monticello and Prairie Island Security Force Training and Qualification Plan contains Safeguards Information as identified by the Commission in 10 CFR 73.21. The revision should not be made available for inspection and should not be placed in the public document room.

Please contact us if you have any questions related to this revision.
