Re: Catawba Nuclear Station

Dear Bob:

SECRET NUMBER
FROM A UTIL. FAC. 50-413/414

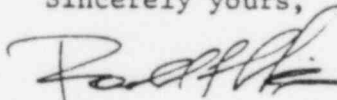

Pursuant to our telephone conversation of April 28, I am enclosing a copy of the documents identified in my April 14, 1983, letter. The total number of copies is 59.

I have enclosed each of the five documents, although we only discussed the first four as identified on the index. After talking with the Q.A. people, I discovered that there are two copies of the presentation, one as it was prepared, and another copy as it was delivered with modifications. Apparently, during final preparation for the presentation, some modifications were made. We have, therefore, enclosed both versions of the presentation.

I discussed the slides with the Q.A. people, and I am advised that the slides were simply copies of the presentations.

If you have any questions, please call.

Sincerely yours,

Ronald L. Gibson
