Gentlemen:

SUBJECT: In the Matter of
Application of Texas Utilities
Generating Company, et al. for
An Operating License for
Comanche Peak Steam Electric Station
Units #1 and #2 (CPSES)
Docket Nos. 50-445 and 50-446

Consideration of LOCA in Design
Criteria for Pipe Supports and
Other Equipment in Containment

We are attaching the Surrebuttal Testimony of Jack Doyle, Witness for Intervenor CASE (CASE Exhibit 761, 761A, 761B, 761C, and 758. It should be noted that Exhibit 758 is the complete version of the Exhibit 758 which was included, in abbreviated form, with CASE's 4/20/83 Brief Regarding Consideration of LOCA in Design Criteria for Pipe Supports.)

Mr. Doyle felt that the information contained in this portion of his testimony was of such importance and with such far-reaching implications that it should be forwarded immediately to the Licensing Board; in addition, we wanted to get it into the hands of the Applicants and the NRC Staff so that they would have the option of addressing it in their Answers to CASE's 4/20/83 Brief.

We will be supplementing Mr. Doyle's Surrebuttal Testimony within the time limit for filing such testimony.

Respectfully submitted,

CASE (CITIZENS ASSOCIATION FOR SOUND ENERGY)

Juanita Ellis
(Mrs.) Juanita Ellis
President
