Perry Nuclear Power Plant
Docket No. 50-440
Conduct of Emergency Plan Drills

Gentlemen:

This letter documents the deferral of the semiannual Health Physics Drill described in Section 8.5.4.3 of the Perry Nuclear Power Plant (PNPP) Emergency Plan, until no later than August 31, 1994. This drill was scheduled to be conducted on June 30, 1994.

Due to the demands placed on plant personnel because of the current refuel outage an extension was verbally coordinated with the NRC Region III Emergency Preparedness Analyst, Mr. Robert Jickling. On June 21, 1994 Mr. Jickling acknowledged the request for a deferral indicating he would discuss the request with his section chief.

If you have questions or require additional information, please contact Mr. James D. Kloosterman - Manager, Regulatory Affairs at (216) 280-5833.

Very truly yours,

RAS:GMN:sc
