Attention: Mr. James P. O'Reilly

Gentlemen:

On March 25, 1983, Mr. Greg Neilfelt of the USNRC was informed of a potential deficiency concerning the above referenced subject. Mr. C. W. Hayes, QA Manager for VEGP, reported the concern for Georgia Power Company.

Georgia Power Company has been advised that the engineering evaluation for this item may not be completed until the end of this year. At this time we believe it would be unwise to forecast a completion date. Georgia Power Company will furnish a schedule for the completion of the engineering evaluation by December 1, 1983.

This report contains no proprietary information and may be placed in the NRC Public Document Room upon receipt.

Yours truly,

D. O. Foster

DOF/CWH/jr
