Plant, Unit 2)	)	

STATUS REPORT

In accordance with the Board's Memorandum and Order dated April 12, 1983, as modified by the Board's Order dated July 21, 1983, Applicant files the following status report. The report has been read to and approved by NRC Staff counsel and the representative of the Hartsville Group.

1. Additional need for discovery.

All parties have filed their first sets of interrogatories. Hartsville Group filed sets of follow-on interrogatories with Applicant and with the Staff on August 1, 1983. Neither Applicant nor the Staff filed follow-on interrogatories with the Hartsville Group.

DS03

The Staff filed answers to the Hartsville Group's first set of interrogatories on July 7, 1983. Applicant filed answers to most of the Hartsville Group's first set of interrogatories and objected to others on June 30, 1983. The interrogatories to which Applicant objected are the subject of a motion to compel by the Hartsville Group dated July 11, 1983, to which Applicant will respond by August 15, 1983. Applicant's responses to the Hartsville Group follow-on interrogatories are due August 18, 1983, and Staff responses are due August 22, 1983. It is possible that either Applicant or the Staff may request short extensions of time for answering the follow-on interrogatories. Hartsville Group filed answers to the Applicant's and Staff's first sets of interrogatories on June 27, 1983.

The parties have not presently identified any need for further discovery. However, in accordance with the discovery schedules agreed upon by the parties and contained in the Board's Memorandum and Order dated April 12, 1983, further discovery may be had (a) on the basis of timely discovery requests based on significant new information not previously available, (b) by agreement of the affected parties, or (c) by order of the Board for good cause shown.

2. Estimated time for completion of discovery.

Dates for completion of responses to presently outstanding discovery requests are as indicated under the preceding item. The parties do not presently anticipate that further discovery will delay the hearing schedule proposed below.

3. Unresolved procedural matters.

The only unresolved procedural matter at present is the disposition of the Hartsville Group's motion to compel referred to in item (1) above.

4. Need for an intermediate prehearing conference.

The parties do not presently see the need for an intermediate prehearing conference.

5. Recommended dates for:

(a) Motions for summary disposition. None of the parties presently anticipates filing a motion for summary disposition and no date for such motions is therefore proposed.

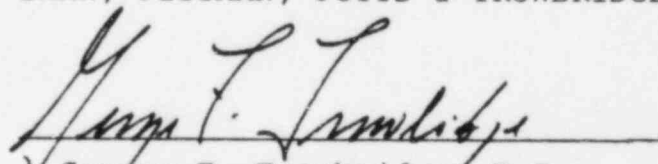

(b) Final prehearing conference. The parties propose a final prehearing conference approximately 15 days after the issuance of the Staff SER or DES, whichever is later. The Staff's present target dates for the issuance of the DES, SER and FES are September 1, 1983, September 30, 1983, and November 10, 1983, respectively.

(c) Prefiled direct testimony. The parties propose that the date for filing prefiled direct testimony be set 15 days prior to the commencement of the evidentiary hearing.

(d) Commencement of hearing. The parties propose that the evidentiary hearing commence approximately 35 days after the issuance of the FES.

Respectfully submitted,

SHAW, PITTMAN, POTTS & TROWBRIDGE

  
George F. Trowbridge, P.C.
