

DOCKET NUMBER 50-287  
PROD. & UTIL. PAB.

1/31/81

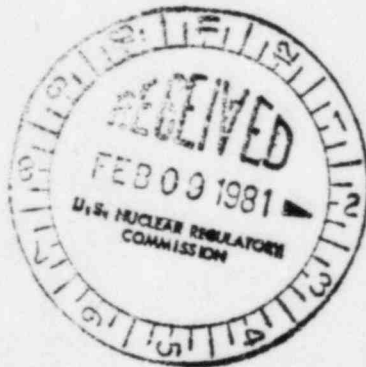

Mr. James F. Ableson, Chairman  
Nuclear Regulatory Commission  
1717 H. St. NW  
Washington, D. C. 20555

Dear Sir:

We stand squarely for the use and  
expansion of nuclear power, in ~~the~~ Russia.  
It is not out of intellect not fear,  
realizing:

- (1) Nuclear power is safe, inexpensive  
and needed;
- (2) Three Mile Island I is different  
from TMI-2;
- (3) TMI-1 has been modified;
- (4) The NRC has waited far too long  
to decide the fate of TMI-1,  
at a cost of \$500,000 per day
- (5) TMI-1 needs to be restarted Now!

Very Truly yours

James F. Ableson  
Chairman
