Mr. James F. Ahearn  
Chairman  
U.S. Nuclear Reg. Comm.  
1717 H St N.W.  
Wash. D.C.

Dear Mr. Ahearn, I am  
writing in regard to Docket #50-289SP,  
TMI Unit 1 Middletown, Pa.

I believe we should promote  
and use our ability to generate  
power with nuclear energy. I  
am afraid we will fall dangerously  
behind the world in power and also  
our balance of trade if we do not  
act on this matter. I am hoping  
for a responsible and realistic  
action on the part of our Congress  
on this and all matters.

Thank you  
Charles W. Simmons
