Atomic Safety and Licensing Board  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Judge Lawrence Brenner, Richard F. Cole, Peter A. Morris

Gentlemen:

Under the circumstances that a very serious breach of confidence in answers provided by Applicant/Counsel, as per revelation by their letter of Aug. 10, 1983, that previously stated information re weld infractions described in IE Report 76-06 of Nov. 10, 1976, to the NRC Safety & Licensing Board, as well as, to Air & Water Pollution Patrol (AWPP) (Romano), AWPP requests that the Applicant be made by the NRC to provide affidavits to substantiate all safety-related matters, correspondence, and information provided the NRC and its Atomic Safety and Licensing Board.

The AWPP (Romano), Contention VI-I (QA/QC) was tentatively denied on the basis of false statements/information made/supplied by Applicant/Counsel. AWPP asked the Board to retract that denial on Aug. 15, 1983. AWPP now asks that the Applicant be made to provide affidavits for all information/statements made/provided for use in influencing the NRC and the Atomic Safety and Licensing Board to throw out contentions in the Limerick Generating Station (LGS) Licensing procedure.

Very truly yours,  
AIR & Water Pollution Patrol
