Gentlemen:

Your letter (2CNA078301) dated July 6, 1983, notified us that we had been selected as a participant for the International Atomic Energy Agency (IAEA) safeguards inspection. It further requested that we provide you with installation information which is to be transmitted to the IAEA for their use in performing the ANO-2 inspection. Pursuant to 10CFR75.11 and 10CFR75.14, attached are 15 completed copies of the IAEA Design Information Questionnaire (DIQ) and a completed Material Balance Report (MBR). Cycle 2 was used as a basis for completing the DIQ.

Very truly yours,
