SUBJECT: NRC CONSENT TO DIRECT LICENSE TRANSFER,  
NRC LICENSE NO. 13-32467-01

Dear Dr. Dean:

By letters dated November 7, 2019 and February 12, 2020, Advanced Nuclear Medicine, LLC submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent to a direct license transfer of NRC Materials License No. 13-32467-01 to Outpatient Imaging Affiliates, LLC. The letters are available electronically from the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession Nos. ML19326D553 and ML20054A079. Further, we understand that this transfer did not result in any change to the licensed materials, personnel, location of use of licensed material, or the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, we have no objection to the transfer of License No. 13-32467-01.

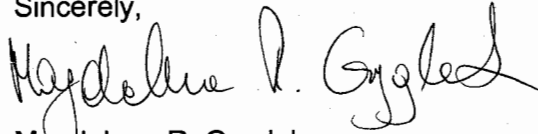

Enclosed is Amendment No. 3 to your NRC Material License No. 13-32467-01 for Advanced Medical Imaging in accordance with your request dated November 7, 2019. Please note that we have also removed the Authorized Use associated with Title 10 of the *Code of Federal Regulations* (CFR) 35.300 material for the Authorized Users.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the NRC Region III office at (630) 829-9887 so that we may provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR Section 2.390, a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
