Docket No. 52-002

Attn: Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: System 80+™ Technical Support Document

Dear Sirs:

This letter transmits a revision of the severe accident mitigation design alternatives Technical Support Document required for the System 80+ Environmental Assessment. This revision provides several format and editorial improvements as well as correction of a minor mathematical error identified by the NRC staff. It is ABB-CE's understanding that these revisions do not affect the validity of the conclusions in the System 80+ FSER or require a change thereto.

If you have any questions, please call me or Mr. Stan Ritterbusch at (203) 285-5206.

Very truly yours,
