Serial No. 94-563  
NL&P/JBL: R0  
Docket Nos. 50-339  
License Nos. NPF-7

Gentlemen:

**VIRGINIA ELECTRIC AND POWER COMPANY**  
**NORTH ANNA POWER STATION UNIT 2**  
**WITHDRAWAL OF PROPOSED LICENSE AMENDMENT REQUEST**

By letter dated July 28, 1993 (Serial No. 93-112A), Virginia Electric and Power Company requested a license amendment for North Anna Power Station Unit 2 to allow use of the Westinghouse laser-welded sleeving process for repair of defects in steam generator tubes. However, we have recently decided to conduct the Unit 2 steam generator replacement during the spring 1995 outage. This decision eliminates the need for the proposed alternate tube repair methodology. Therefore, we are, hereby, withdrawing this proposed license amendment request.

Should you have any questions, please contact us.

Very truly yours,

James P. O'Hanlon  
Senior Vice President - Nuclear
