Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, DC 20555

SUBJECT: Arkansas Nuclear One - Units 1 & 2
Docket Nos. 50-313 and 50-368
License Nos. DPR-51 and NPF-6
Revision 5 to the ANO Industrial
Security Plan

Gentlemen:

In accordance with 10CFR50.54(P), attached are two copies (copy number 1 to Mr. Harold R. Denton and copy number 2 to Mr. John Collins) of Revision Number 5 to the Arkansas Nuclear One Industrial Security Plan. A brief description of each change made in this revision is provided in Attachment A. This revision includes those changes approved by the NRC in Mr. John Stolz's letter to AP&L's Mr. William Cavanaugh III dated February 23, 1982, Amendment No. 63 to Facility Operating License No. DPR-51 and Amendment No. 28 to Facility Operating License No. NPF-6. Those changes in Revision Number 5 not approved by Mr. Stolz's letter of February 23, 1982, were determined not to decrease the safeguards's effectiveness of the plan and therefore were made without prior NRC approval.

Due to the proprietary security nature of the attached, we request that it be withheld from public disclosure pursuant to 10CFR2.790 (d).

Very truly yours,

John R. Marshall
Manager, Licensing
