ATTENTION: MR. R. W. BORCHARDT

SUBJECT: ERRATA - AP600 TESTING PROGRAM REPORT, WCAP-14135

Reference: Westinghouse Letter NTD-NRC-94-4243, "AP600 Testing Program Reports
(WCAP-14135, WCAP-14138)," Liparulo to Borchardt, July 29, 1994

Dear Mr. Borchardt:

The reference letter transmitted copies of the final test report for the AP600 PCS Large Scale Phase 2 and Phase 3 tests. The letter provided the following report:

WCAP-14135, Final Test Report for PCS Large Scale Phase 2 and Phase 3 Tests, August, 1994
(Proprietary)

Section 3.3 of the report discusses the evaluation of the test data. Page 3-5 provides a discussion of the data files containing differential temperature measurements and the calculation of a calibration offset. This discussion does not clearly identify that the data files do not include the calibration offset. To preclude the possibility of misinterpretation of the temperature measurements, an errata page is provided which clarifies this point. The following sentence has been added to the end of the first paragraph on page 3-5:

The differential temperatures reported in the "FO" files were not corrected for the calibration offset of Table 3.3-1.

October 10, 1994

Please replace page 3-5/3-6 in each of your copies of WCAP-14135 with the corrected page provided with this letter. Additionally, place a copy of this letter in the front of the report to make note that the page has been changed.

Please contact Brian A. McIntyre on (412) 374-4334 if you have any questions concerning this transmittal.

N. J. Liparulo, Manager
