Docket No. 50-461

June 16, 1983

Director of Nuclear Reactor Regulations  
Attention: Mr. A. Schwencer, Chief  
Licensing Branch No. 2  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Schwencer:

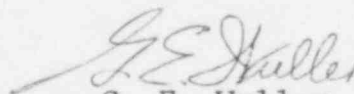

Subject: Clinton Power Station Unit 1  
Emergency Response Facilities Design Report

Reference: 1) NRC Generic Letter 82-33, dated December 17, 1982  
2) IP letter dated April 13, 1983, (0970-L), D. P. Hall to A. Schwencer, NRC, subject: Supplement 1 to NUREG-0737  
3) IP letter dated June 6, 1983 (U-0642), G. E. Wuller to A. Schwencer, NRC, subject: Supplement 1 to NUREG-0737

The reference 1 letter requested a proposed schedule for completing each requirement of the NUREG-0737 Supplement 1 and a description of the implementation plan. Illinois Power Company submitted a description of its implementation plan for the Clinton Power Station by the reference 2 letter. One of the actions committed to in the plan was the submittal of an Emergency Response Facilities (ERF) Design Report. The June 1, 1983 submittal date for this report was amended to June 15, 1983 in the reference 3 letter.

Enclosed is the ERF Design Report. Illinois Power Company will promptly answer any questions by the NRC Staff about the ERF design. Also we will be pleased to meet, if necessary, with Staff personnel at your convenience.

Sincerely,

G. E. Wuller
