Docket No. 50-412
"ASME Nuclear Code Pumps and Spare Parts Manufactured by the
Hayward Tyler Pump Company"
IE Bulletin 83-05

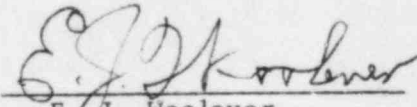

Gentlemen:

We have reviewed IE Bulletin 83-05, "ASME Nuclear Code Pumps and Spare Parts Manufactured by the Hayward Tyler Pump Company." Although Beaver Valley Power Station Unit No. 2 was not identified as a user of Hayward Tyler pumps in Attachment 1 of the Bulletin, a review was performed to identify any safety-related Hayward Tyler Pumps and spare parts installed or ordered for our facility. Based on our review, we have determined that Unit 2 has not utilized or ordered any pumps or spare parts manufactured by the Hayward Tyler Pump Company in safety-related applications.

If you have any questions concerning this response, please contact my office.
