Dear Mr. Varga:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
IE Bulletin 80-11 "Seismic Qualification of Masonry Walls"

Reference: Letter from Mr. W. S. Little to Mr. C. W. Giesler dated
April 20, 1983

The above referenced letter transmitted Inspection Report 50-305/83-05 (DE). This reported an inspection which was intended to evaluate our actions relative to IE Bulletin 80-11.

The results of your inspection and our own investigations indicate that the scope of the response must be expanded to resolve all of your concerns. Accordingly, we have re-initialized our program to respond to IE Bulletin 80-11. Results obtained to date indicate that additional walls will be subject to evaluation in accordance with the requirements of the IE Bulletin. A revised response will be transmitted to you on January 1, 1984. This report will answer each of the response items in the Bulletin.

Very truly yours,

A handwritten signature in cursive script, appearing to read "C. W. Giesler".
