Response to Administrative Letter 94-12,
"Operator Licensing National Examination Schedule"

Gentlemen:

NRC Administrative Letter 94-12, "Operator Licensing National Examination Schedule," dated September 12, 1994 requested licensees to voluntarily submit, within thirty (30) days after receipt of the Administrative Letter, updated schedules for licensed operator examinations. PECO Energy received Administrative Letter 94-12 on September 23, 1994.

Attachments 1 and 2 are the PECO responses to Administrative Letter 94-12 for Peach Bottom Atomic Power Station (PBAPS) and Limerick Generating Station (LGS) respectively. Both attachments contain proposed schedules for operator licensing examinations, and generic fundamental examination.

During NRC FY 95 and NRC FY 97 a total of eight (8) candidates will take the dual site Limited Senior Reactor Operator (LSRO) initial license examination as indicated in attachments 1 and 2 on NRC Form 536 "Operator Licensing Examination Data." The schedule for the indicated exam week is as follows; the written exam and part of the operating exam will be given at PBAPS; the remainder of the week will be spent at LGS completing the operating exam.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

George A. Hunger, Jr.
Director-Licensing Section
